24/7 Expert Solutions That Work As Hard As You Do

Test Your Soil

Get quick results (easily!) when you send in your soil samples. Based on your soil's composition, we advise the best seeds to plant and when to plant them, the best fertilizer to spread and how to spread it, and the best pest control to implement and how to implement it.

Plan Your Crops

Confidently plant your seeds with the best directory available. Learn the best types of soil, the irrigation needs, and the best climates for each crop. Discover common health concerns for each crop, how to prepare your field, the best times to plant, and the best times to harvest.

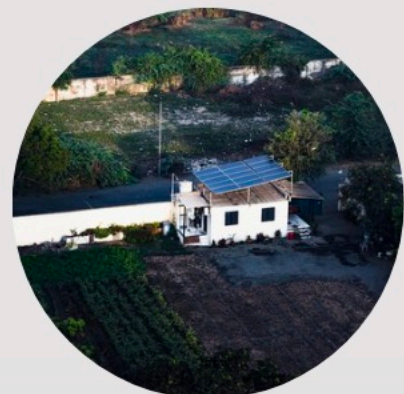

Get Access to Quality Resources

When you're ready to plant, order the best quality seeds, fertilizer, and pest control straight from your app. Enjoy quick, stress-free delivery straight to your fields. Don't pay until your products arrive.

Receive Weather Alerts

Enjoy low-stress farming with automatic weather warnings that allow you to prepare and protect your fields from destructive conditions. Accurately plan sowing & harvesting dates with accessible 2-week weather forecasts.

Monitor Your Crops

Get regular advice for pest control, yield prediction, irrigation, climate conditions, and advice for manure usage based on your crop surveillance.

Connect With Experts

Take advantage of hassle-free Ag consulting available 24/7 for active members. Our experts are eager to help you solve any problem, big or small.

Get Crop Insurance

Protect your crops & your livelihood from natural disasters with affordable Ag insurance.

Enjoy Access to Profitable Markets

Get the highest price for your produce based on the latest market data. Connect directly to high-paying buyers. Relax while the DeHaat logistical team helps you transport your harvest.
